Fire Sprinklers

Hood Suppression System

Fire Protection Water

Fire Alarm

Other (list) _____

Design/submission notes.

- Fire protection systems must be designed by a qualified designer (engineer, Nicet certified or by the manufacturer) and the plans must be stamped.
- Electronic plans may be submitted; however, the District reserves the right to require paper copies.
- When submitting sprinkler plans, the information required by 8 CCR 1507-11 6.2 must accompany the submission. Note the special exceptions for small projects in 8 CCR 1507-11 6.2.7.
- When submitting other fire protection systems supply the plans, cutsheets, spec sheets and other information required by IFC 105.4.

For Office Use Only
